Much interest was occasioned in the sale of the splendid home which is renown as the old Letcher and Caperton residence. It was offered immediately after lunch, and interest was keen from the out set. The lot reserved for the magnificent old home measures 300x400 feet, and contains servants' house, garage, etc. The place was finally knocked off to Mr. W. M. Baker, of the Million section, of this county, upon his bid of \$8,100. It is considered that he secured a great bargain in this, for the house, at present prices could not be built for \$20,000, expert contractors say.

Berlin, June 3—The illegal sale of meat and bread without cards of more than one portion of meat for one meal has grown so prevalent in Berlin that the state commissary for peoples nourishment has issued a sharp reminder drawing attention to the fact that war-time regulations are still effective and that further violations will be followed by closing kitchens, fines up to \$25,000 or imprisonment up to five years with loss of citizenship.

The order specifies that most of the war-time regulations are as necessary today as before.

Corns, Calluses

Ever pack up your toe with "contraptions" and plasters as though you were packing a glass vase for parcel post? Ever use greasy ointments that rub off on your stocking? Ever use sticky tape that gets jerked off when you pull your stocking off? Kind o' foolish, when 2 or 3 drops of "Gets-It" on any corn or callus gives it a quick, painless, peaceful, dead-sure funeral! Why putter and suffer? "Gets-It" stops corn pains, it leks you work, smile and dance, even with corns. It's the common-sense way, the only simple, easy way peels corns off like a banana peel. Used by millions. It never falls. "Gets-It," the guaranteed, moneyback corn-remover, the only sure way, costs but a trifie at any drug store. M'td by E. Lawrence & Co., Dhicago, Ill. Sold in Richmond and recommended

This is the package with the moisture-proof jacket

that keeps Chesterfield's original flavor and freshness intact. Your Chesterfields never become either soggy or dry. They always reach you in prime shape for smoking.

And, Chesterfields do something for your smoke-hunger that you've always wished a cigarette would do - they "touch the smokespot" - they let you know you're smoking they satisfy right down to the ground!

It's the blend that does it, and the blend can't be copied.

A Hot Spot Chalmers Holds Every Drop of Gas to Account

T takes gas to move weight. And in a car like the Hot Spot Chalmers, which is 300 pounds above the "light-weight" class and 300 pounds under the "heavy-weight" class, gas has more than passing attention.

The trick is to move this weight at the minimum effort. Therefore, the Hot Spot and Ram's-horn play a great part in

Hot Spot holds every drop of gas to account.

It "cracks up" into a "dry vapor powder" the raw gas just as the gas enters the Ram's-horn and the latter dispatches the "pulverized" fuel to the cylinders with lightning like rapidity.

The result is that when the spark plugs "touch it off" every drop (finer by far than the naked eye can detect) turns e-If into power de luxe.

There's little waste-well nigh none. And remember that this Hot Spot engine of the Chalmers is the most modern automobile engine

It has made Chalmers one of the few great Qua cars of the world.
